www.trinvalco.com

	is a leading manufacturer of high value-added products in advanced stainless steels and special alloys, as well as products for industrial heating. Our offering and in-depth expertise in materials technology, metallurgy, and industrial processes enable customers to become more efficient, profitable, sustainable, and safer. Website: <a href="https://www.alleima.com/en/">https://www.alleima.com/en/</a>
	is a world leading designer and manufacturer of energy control valves, safety, and monitoring products for engines, compressors, turbines, and other rotating equipment. AMOT supports companies leading the transition to renewable technologies with products that make their systems even more efficient, thus increasing their positive impact on the environment exponentially. Website: <a href="http://www.amot.com">http://www.amot.com</a>
	develops, sustainably produces and installs control valves, valve actuators, positioners, instrumentation and accessories for a wide variety of industries worldwide. ARCA also offers comprehensive services for the safe and efficient control of your processes. We control the flow from project consulting to maintenance to process optimization. Website: <a href="https://www.arca-valve.com/">https://www.arca-valve.com/</a>
	has been helping companies improve thermal efficiency, lower energy use and reduce environmental emissions for more than a century. We are global leaders in thermal utility management with all the experience, knowledge and insight necessary to help you minimize energy use, optimize your system, and decarbonize your facility's primary energy sources. Also, Armstrong International through Veris, can offer flow measurement technology. Website: <a href="https://armstronginternational.com/">https://armstronginternational.com/</a>
	is an industry leader in the design, manufacture and distribution of level indication & control products and services. Clark-Reliance Brands include: Clark-Reliance, Jacoby-Tarbox, Jerguson, Ernst Instruments, Enervac, etc. Website: <a href="http://www.clarkreliance.com/">http://www.clarkreliance.com/</a>
	specializes in the development, manufacture and marketing of highly-engineered products and repair services for shell & tube heat exchangers, condensers, coolers and chillers. The EST Group also engineers and manufactures pressure testing and isolation plugs to greatly simplify and speed-up pressure testing and/or isolation of piping, tubing, valves and pressure vessels. Website: <a href="http://www.cw-industrial.com/">http://www.cw-industrial.com/</a>
	provides customers with total pressure relief management solutions. We support your facility's entire product lifecycle: Design, Equip, Monitor, Maintain and Audit ensuring your plant safety: Website: <a href="https://www.cw-valvegroup.com/en-gb/services/farris">https://www.cw-valvegroup.com/en-gb/services/farris</a>
	is a global leader on emissions control and a pioneer in modern Smart Combustion™ solutions. We offer proven technologies from the industry's most trusted brands: John Zink, KEU, KALDAIR, McGill Incorporated, Chenronics, Peabody Engineering, Airoil-Flaregas, Hamworthy Combustion, Todd Combustion, Coen, etc. We help our customers operate in a cleaner, safer and more economical way. Website: <a href="https://www.johnzinkhamworthy.com/">https://www.johnzinkhamworthy.com/</a>
	provides a wide range of innovative products and solutions in mass transfer, mist elimination, and phase separation equipment. We have the knowledge and experience to optimize the design of your process to save energy, reduce pressure drop, increase throughput capacity, boost efficiency, increase product purity, or improve reliable operations. Website: <a href="https://koch-glitsch.com/">https://koch-glitsch.com/</a>
	focuses on building preferred partnerships within industrial value chains. We are fully integrated to effectively manage and execute all construction phases from major projects to turnarounds and outages. Because it's about doing the right thing every time, not just what is required by law. Website: <a href="https://kochservices.com/">https://kochservices.com/</a>
	is a global manufacturer of non-reclosing pressure relief solutions such as customized rupture discs and explosion vents. Our pressure safety solutions include the innovative Oseco Safety Cartridge, LoKr and Pure-Gard. Our engineering and training services enhance safety, quality and productivity, protecting life with solutions for a safer, cleaner world. Website: <a href="https://www.osecoelfab.com/">https://www.osecoelfab.com/</a>
	pipeline fittings have been used for high pressure emergency pipeline repairs and routine pipeline maintenance. Our high-pressure fittings are designed and manufactured to the applicable codes and adhere to our strict quality control program. Our proven products have enabled customers to avoid or minimize costly shutdown times, while keeping staff and the environment safe. Website: <a href="https://plidco.com/">https://plidco.com/</a>
	is a market-leading provider of flow control solutions (actuators, gearboxes, instrumentation & control, pneumatic valves & manifolds and control networks). We help our customers to increase their operational efficiency, reduce environmental impacts and provide safer working conditions through our innovative research and development programs, comprehensive product portfolio and global service capabilities. Our brands include: Bifold, Centork, Fairchild, Hanbay, Mastergear, Midland, M&M International, Remote Control, RotoHammer, Schischek, Soldo Controls and YTC. Website: <a href="https://www.rotork.com/en">https://www.rotork.com/en</a>
	is a major developer and provider of fluid system solutions. Products include: fittings, valves, hoses, regulators, medium and high pressure products, process instruments, quick connects, measurement devices, tubing & tools, filters, sample cylinders, sample probes, grab sample panel, MPC modular systems, pre-engineered subsystems, welding system, leak detectors, lubricants & sealants and Swagelok custom solutions (assemblies). Also, Cajon, Whitey, Sno-Trik, NuPro, Kenmac, IPT and FK have been incorporated into the single Swagelok brand. Website: <a href="http://www.swagelok.com/en">http://www.swagelok.com/en</a>
	is a worldwide leader in pressure and temperature measurement. We set the standard in the measurement of level, force, flow, calibration technologies and SF6 gas solutions. Included in our portfolio are brands such as Guyesco, 3D Instruments, Scandura, Mensor, DH Bundenberg, Sami Instruments etc. We provide the highest quality product, with continuous attention to energy saving in manufacturing. Website: <a href="https://www.wika.com/en-en/company.WIKA">https://www.wika.com/en-en/company.WIKA</a>
	is a leading manufacturer of valves which meet the highest requirements and quality standards. Our product range includes metal-seated butterfly valves (TRI-CON), the check valves series (TRI-CHECK), the Double Block and Bleed Design (TRI-BLOCK), and the control fitting with the specially designed Sharktooth attachment (TRI-SHARK). Zwick provides high standard valves for non-standard conditions. Website: <a href="https://zwick-gmbh.de/en/">https://zwick-gmbh.de/en/</a>

#### CERTIFICATION

**ISO 9001: 2015** - Trinidad Valve and Fitting Company Limited maintains a quality management system in compliance with ISO 9001: 2015 in respect to the products / services listed hereunder: the stocking, sales, servicing and repairs of valves, actuators, tube and pipe fittings, and other instrumentation components for the oil & gas, petrochemical and utilities sectors.

**SAFE TO WORK (STOW)** – Trinvalco has consistently maintained our STOW certification since 2011 by the implementation and maintenance of the HSEQ Management System that permits us to work in any of the STOW Chartered energy companies in Trinidad & Tobago while exceeding the minimum requirements at the High Level for both Onshore and Offshore.

**Tcertification** - Anti-bribery compliance and good governance, certifies that Trinidad Valve & Fitting Company Limited undertakes a comprehensive due diligence process and is a TRACE Intermediary Member.

#### SHOP CAPACITY (MAJOR EQUIPMENT)

- Calder Valve Test Bench: ½" to 12"for Class 150# & 300#
- Calder Valve Test Bench (portable): All Sizes and Class
- Calder DASS Data Acquisition: Pass/Fail and Leakage Rate System for Calder Test Bench
- MaxPro 30K Portable Test Cart
- GORBEL 5 TON Free Standing JIB Crane and Hoist System
- 2 TON and 1 TON Hoist
- Goff 1 TON Capacity Bead Blaster with 36" power-wheel
- Paint Booth System
- Wash Bay Area with Buried Sump
- WIKA Pressure Calibration and Testing Equipment
- 3 Phase 480V supply with capability to test 3 Phase 480V, 3 Phase 220V, Single Phase 220V, Single Phase 110V & 24VDC.
- Over 3000sq. ft. Floor Space

#### CAPABILITIES

##### ACTUATORS & GEARBOXES

- Valve Automation & System Integration
- Actuator, Gearbox Repairs & Servicing
- Actuator Sizing & Selection
- Plant Audit & Spare Part Support
- Technical Support
- Preventative Maintenance Programs

##### LEVEL INDICATIONS & CONTROL

- Level Gage / Valve servicing & hydro-static testing
- System Integration
- Spare Part Support
- Technical Support
- Preventative Maintenance Programs

##### INSTRUMENTATION SERVICES

- Tubing/Fitting Installation
- Instrumentation Integration ESD & Control Panel Provision

##### CALIBRATION

- Pressure Instrumentation
- Flow Instrumentation
- Relief Valves

##### TOOL RENTALS

- Swagelok Installation Tools
- Valve Test Flanges

##### VALVES

- Valve Repair & Servicing
- Hydrostatic & Leakage Testing
- Valve Maintenance
- System Integration
- Spare Part Support
- Technical Support
- Preventative Maintenance Programs

##### HEAT EXCHANGER SUPPORT

- Installation of Heat Exchanger Plugs
- Tube Testing (Vacuum)
- Spare Part Support
- Tube Sleaving

##### PIPELINE MAINTENANCE

- Installation of Pipeline Repair Clamps
- Inspection & Re-packing of Pipeline Repair Clamps

##### ELECTRICAL WORKS

- Electrical Infrastructure & Installation

##### TRAINING

- Certified training available upon request for solutions within our portfolio
